

contemporary doors for life

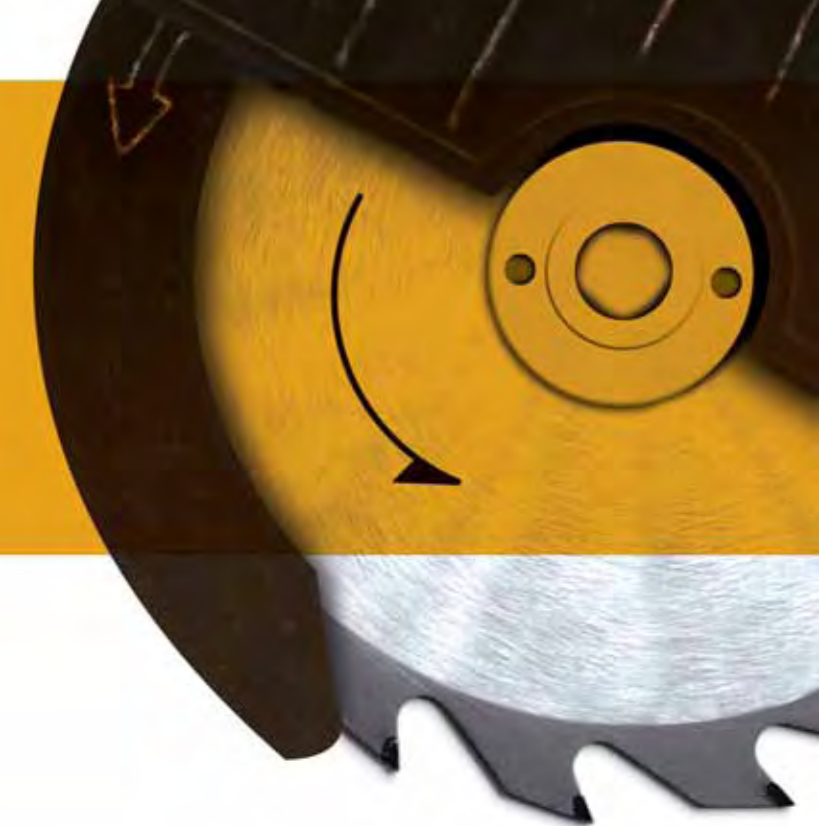

We are proud to present our premiere range of contemporary Spirit doors. With over 170 years experience in fine joinery, JCK Joinery has the expertise to create the highest quality doorsets, from an exquisite Spirit doors design to a unique, one-off commission.

Over the years, our customer base has included a wide and varied range of well-known names including banks, building societies, local authorities, housing associations, government departments, retail, commercial and industrial clients, together with numerous national and regional developers and construction companies, as well as many individual customers.

Our premiere range of contemporary Spirit doors offers the quality, choice and functionality you will be looking for. This exquisite collection of designs and styles combine the finest materials with experience, expertise and craftsmanship.

The contemporary Spirit doors range is a beautiful collection of designs and styles using the highest quality materials to produce a stunning finish. As market leaders, JCK Joinery combine a wealth of experience, craftsmanship and innovation to produce this stunning range of contemporary doorsets. Whilst strong on aesthetics, JCK Joinery also excel on practical requirements. This includes security, weatherproofing and durability. Indeed, Spirit doors can be certified to Secured by Design (PAS24), a standard administered by the police to ensure a high specification of security.

contemporary primera range

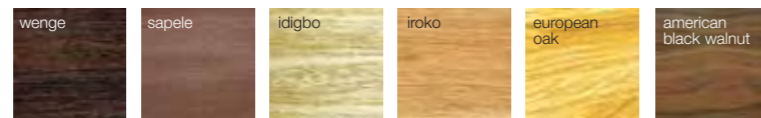

Ideal for the times you wish to make a stunning design statement, the Primera range of doors combine a choice of attractive stainless steel portholes in a solid timber door.

The Primera range provides real flexibility and choice. As well as offering a wide selection of vision panels, the door, whilst intended for medium to dark stains can also be finished in a range of solid colours.

As a solid core door, thermal and acoustic efficiency are improved and, as the design is machined into the face of the door, no stiles or rails are visible, enhancing the doors' appearance still further.

stunningly designed to ensure a dramatic entrance to any home or office building

contemporary deco range

Choose from the remarkable designs available in our Deco range, and give any building a dramatic entrance and a dynamic statement of intent.

Our Deco range of doors are designed for solid paint finishes. The impact and style can be further enhanced by specifying vibrant and exciting colours from our colour range. Where the design features a vision panel, the required glazing specification and fire rating for the location will be incorporated.

All doors in our Deco range are available in both softwood or hardwood frames.

contemporary nouveau range

The exquisite designs in our Nouveau range of doors allow you to add your own individual touch to the design of the door. Our unique range of original designs can be customised to produce styling that is both individual and highly memorable.

The choices available to you start with a selection of painted finishes and extends to the vision panels which can feature clear, patterned or obscure glass. Similarly, the hardware is available in satin stainless steel as well as a selection of alternative options.

Available mainly for exterior applications, some of the designs in the Nouveau range can be adapted for use in interior locations.

technical detail

Material and Construction

All doors are available with soft or hardwood frames, (FD60's have hardwood as standard).

(Naturelle and Primera range)

Doors are available in many timbers which includes european oak, sapele, iroko, idigbo, wenge and accoya.

Cedar and american black walnut are available for limited applications.

Other timbers available upon request.

Joinery panel construction - a traditional mortice and tenon door with conventional stiles and rails. A 15mm ply panel has timber cladding applied to the face. The door can be made in softwood or hardwood.

Boarded door construction is for designs which do not require visible stiles and rails use a 25mm Plycore with timber cladding.

Solid core blank - edged all around, has the designs engraved into the face, solid colour paint finish and limited stain colours available.

(Deco, Nouveau and Vision range)

Plycore door edged all the way round. Where applicable applied mouldings or engraving are used to create the design on the face of the

door. Solid colour paint finish and limited stain colours available.

(Nouveau range)

GRP door blanks are glass reinforced plastic which has a textured face, and are available in any solid paint colours to RAL or BS range are available.

Secured by design

All ranges can be made to the enhanced security standard PAS24.

www.securebydesign.co.uk

Fire doors (All Products) Boarded door and joinery panel construction are not fire-rated.

Most doors are available with FD30 or FD60 fire rating.

Thermal and acoustic properties (All products)

Acoustic doors can currently achieve up to 40db. For further reduction requirements please contact us for details.

Subject to specification of product, thermal values can be as low as 0.8 (W/m2K).

Environmental friendly products

Full chain of custody for FSC and PEFC is available on an increasing number of products.

Delivery service

We can deliver all over the UK Monday - Friday.

You will need to make arrangements for off loading at least two people should be available for lifting the product depending on the size and weight.

Visit our premises

All products are made at our premises in Leicester which you are quite welcome to visit, we have a small showroom which has limited products on display as we are essentially a manufacturing site.

Please enquire for more details.
